

At the end of 2018, House of Talents took over HRbuilders & PAYROLLbuilders. House of Talents (HoT), founded in 2008, is a service group that specialises in niche positions. Twelve different companies employ more than 1,250 people.

Each company specialises in a unique niche. HRbuilders has a leading, fast-growing, (inter)national reputation in the field of HR interim management, PAYROLLbuilders specialises in payroll profiles in Belgium and HR Talents helps clients with recruitment and selection of permanent roles, assessment, project staffing and interim management at national level.

On 20 November 2019, Hans Joris' mandate as General Manager has ended. Sofia Van Overmeire will now take on the role of General Manager within HRbuilders (Europe), PAYROLLbuilders and HR Talents. Sofia has been working for HRbuilders for 5 years in the position of Business Manager Europe & Managing Partner.

HRbuilders and HR Talents will conduct business under one name from January 2020: HR Talents. We will work together on interim management as well as recruitment and selection to take care of our customers. Together we will provide an answer to every staffing emergency within HR departments. From junior to senior, from operational to strategic, from local to national and international, from expert to generalist. 1 niche, 1 partner.

Our teams will work together from their offices in Ghent, Kortrijk, Antwerp, Brussels, Liège, London, Paris and Lyon in order to serve our clients as quickly and efficiently as possible. Expertise, efficient service and quality are key to this approach.
